Part of a licensing agreement

INSTALLATION IS 5 TIMES
FASTER AND MORE EFFICIENT
THAN STANDARD CONCRETE
CONSTRUCTION

THE NEW WALLS CAN BE
DESIGNED TO WITHSTAND
EXTREME WEATHER CONDITIONS
HIGH WINDS AND EARTHQUAKES

Choice ME Ventures, LLC

Using EBS Technology for faster construction

Pictures provided by EBS Systems as Part of a licensing agreement

THE SHOP FABRICATED PANELS ARE EASY TO ASSEMBLE IN MANY SIZES AND SHAPES. THEY ARE LIGHT WEIGHT AND EASY TO TRANSPORT. EBS TECHNOLOGY INCLUDES CONCRETE WALLS, FLOORS, FLAT ROOFS AND SLOPED ROOFS FINISHED WITH EITHER TILED OR SHINGLE-PLY WATERPROOFING MATERIALS.

The benefits of EBS technology are numerous in most types of buildings when compared to poured-in-place concrete structures

1. Five times faster to build
2. More economical
3. More energy efficient
4. Thinner walls for more usable space
5. Easy to form with higher accuracy
6. Easy to assemble at the job site
7. Reduces labor at the job site
8. Maximizes plant production line technology
9. Maximizes construction accuracy
10. More compatible with plumbing and electrical
11. Can accommodate mechanical ductwork
12. Easier to finish on both the exterior and interior
13. Just as structurally sound up to ten stories
14. Is designed to withstand high winds and earthquakes
15. Exhibits very good sound reduction characteristics
16. Resists high impact projectiles

THE COMPANY

Choice ME Ventures, LLC
A Choice Group Company

Choice ME Ventures, LLC - Qatar

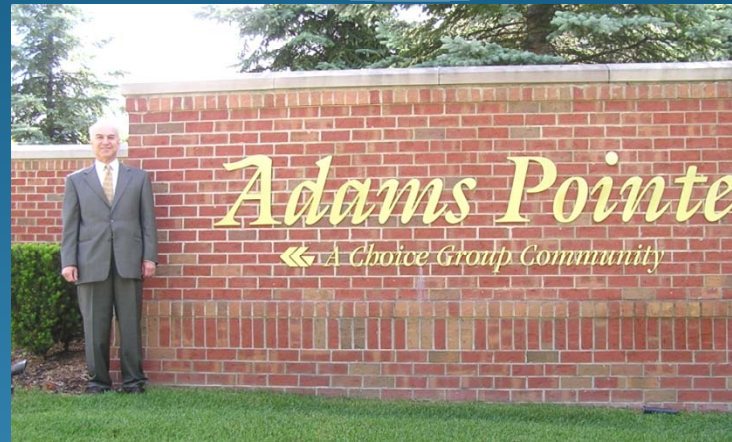

A Choice Group Company

Choice ME Ventures is a premier international residential development company located in the United States and the Middle East. Choice ME Ventures has researched and developed a variety of building systems and one in particular will be of great interest to developers in the Middle East, that being the EBS System of poured-in-place concrete building components. It is definitely a better way to construct concrete buildings of one to five stories tall.

Choice ME Ventures, LLC

Choice ME Ventures' experience comes from being a premier builder of very desirable medium and high end residential homes and communities in America and Lebanon over the last 30 years.

THE NEW CHALLENGE

Choice ME Ventures, LLC is focused on meeting the building needs of the GCC countries in a rapidly growing social, economic and business environment. The challenges are great in addressing the construction needs of one of the fastest growing populations in the world. The opportunity to provide both jobs and building components are integral to the challenge that Choice ME Ventures is positioned to address with the new concrete building components for the shell of the structure.

Choice ME Ventures, LLC

A Choice Group Company

Choice ME Ventures welcomes the opportunity to meet with community leaders, developers, general contractors, engineers, architects, land owners in order to introduce the Company's plans to implement this new building technology in the Middle East.
